We teach medical students

This practice is proud to be a University of Bristol teaching practice, which means that we sometimes have medical students here on placement.

If there is a medical student sitting in your consultation, we will let you know before hand. Sometimes students may see you on their own, but you will always be reviewed by a qualified health professional afterwards. If you would prefer not to see a student at all, please let the receptionist know.

Students learn a huge amount from this experience and most patients find it helpful too.

We can't do it without you!
